Vanessa,

In addition to Kay Lawson, who facilitating the session, I've asked Kathy Bialk, Rikki Lowe, and Harley Walden to talk about their experience publishing their work via the Writing for Publication seminar. So they should be listed as participants/discussants in addition to myself and Kay if they're not already...

So, here's a brief description:

Past participants of the Writing for Publication seminar (EDF 677) will discuss their experiences with publishing their work in academic journals. Topics include struggles with writing, working with journal editors, the editing process, and final publication.

Hope that works for your purposes Vanessa — let me know if you need more or less...

Best,
Eric
